FRIDAY

[illegible]

To my wonderful patients and their families.

It is with mixed emotions that I announce **my retirement on January 26, 2024**. Caring for you has been the most rewarding part of my Nurse Practitioner career.

I have been so honored to look after several generations of your families. Thank you for allowing me to look after your babies, yourselves, and your grandparents or families in long term care. I have cried with many of you when it wasn't good news; but I really cherish the times that we had things to celebrate for your health! I never knew what the days would bring, but it was wonderful to work through so many different things with my patients! As many of you know, I have always loved precepting Nurse Practitioner students. I thank all of you for having made my students feel so welcome in my practice.

I have the greatest respect for the people that I have worked with over the years. They have supported me, and made it much more rewarding to look after my patients. I credit them with making our clinics such a joy to work in. I thank them for looking after things when I was away from the office and I know that they will continue to help as much as they can after I am done working in my position.

As many of you know, it has been a very challenging year for my family. I thank you for your patience while I was away this summer during Chuck's illness. The support and kindness you have shown me is incredible.

So it is with a very heavy heart that I have made the decision to retire from my position. Chuck and I are going to do the things that are most important for us right now. We hope to spend lots of time with our kids and grandchildren. It is going to be different as we adjust to our new routine, and I am sure we are both going to miss many things from our workplaces.

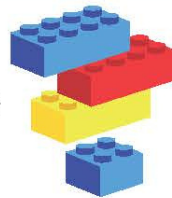

I anticipate that the Health Region will do everything they can to provide services in your communities, and I am sure they will replace me with another wonderful Nurse Practitioner! Please watch for official updates as they become available. Thank you again from the bottom of my heart; I am so lucky to have been a part of your lives for over the last 20 years.

Sincerely;

Johanne Rust
